## **Childrens Hairdressing**

### **Child Safety Policy**

We love children, and we hope that you will understand that we cannot assure their safety in the salon. Children are only permitted in the salon area when having a service. We ask that children are accompanied at all times by a parent or guardian and that salon equipment and furniture is not moved or played with. This is in order that we comply with health and safety regulations and for our own insurance companies purposes.

We also do not want to compromise the relaxation and salon experience of our guests.

### **Childrens Services**

At Otf hair we pride ourselves in our family values. We offer a full range of children's hairdressing services.

Children's hairdressing is available at most times. However during busy periods we do limit the bookable slots available for children's hairdressing, they are offered on a first come first served principle. You can however call on the day and if we have availability we can accommodate more children. This applies to late nights and Saturday appointments or periods of high volume.

The senior team members will only accommodate children at their full service price. (At the discretion of the individual stylist.)

### **Under 16 Colouring Policy**

Under no circumstances will we carry out colouring services to anyone under 16. This is in line with the manufacturer's and industry instructions. Exposure to chemicals early in a young adult's development can sometimes set up sensitivity to hair colour which does not always show straight away. Or worse the sensitivity is instant and very serious.
